### SUNLIT SANCTUARY

Indoors and out seamlessly converge in the sunroom of this European-style Tudor, nestled on a wooded lot with picturesque views of lush trees and water on each side. With balance at the forefront of the design, the porch showcases a striking interplay of materials—from the reclaimed wood beams that offer rustic charm to the contrasting light beige stucco that clads the custom fireplace. The carefully curated collection of furnishings also contributes to this mix of textures, with the coffee table, specifically, enhancing the natural beauty of cypress wood. Expansive screened windows flank the perimeter and create an indoor space synonymous with the surrounding landscape—resulting in an ideal spot to cozy up and watch as the Minnesota seasons change.
